

## Ergonomic Offering Geared to Target New Market

For the past few months our office has been buzzing about the NEW Marcella Collection set to debut in May. This is the first real cutting-edge ergonomic chair we will be offering our customers, and we couldn't be more excited. Fondly named after the owner's daughter, we retired the original Marcella chair and turned her into a whole collection. The standard black mesh Spring and Spark chairs are accented in polished aluminum, providing high style at a reasonable cost. We've critiqued mesh colors, debated grey frame vs. black frame, and we've cushion tested for your maximum comfort. The Marcella Collection has options to suit any flavor on the market. We can't wait to hear your feedback. Brochure coming SOON!! Available in May.

## South Carolina Approved

South Carolina's State Government announced last week its list of approved vendors for the State Wide Wood Furniture contract. Miller at Work was re-approved for this title making it the second consecutive year on the contract. We look forward to providing quality service and products to the states purchasers over the next year.

## Steppin' Out In CHICAGO

Over the last few years, we have all felt the effects of the Recession in one way or another. We've all had to take a step back and re-evaluate what was absolutely necessary. For many of us this has meant a decrease in trade shows, marketing and new product introductions. As patient as we have all been, we are all hopeful for a climb in this economy. For all of these reasons, it is with great pleasure that we announce we will be showing for the very first time at NeoCon World's Trade Fair as MILLER at WORK. We hope that this June will be a success for all those who attend. Hope to see you there! **8-2130**

## Meet the New Personalities . . . Which One Are You?
